ARTWORK & DIGITIZING

Send us artwork of any kind, from a hand drawn napkin sketch to a professional digital file. Our fully dedicated team of graphic artists will turn the art into a high-quality, full color design. If you only have a concept, our creative service team can assist you with creating the image you desire to bring your brand to life. We will send you a full color sketch card with thread and fabric color swatches attached for you to approve or correct, or you can receive a finished e-sample.

PRODUCT HIGHLIGHT

TACKLE TWILL

Penn Tackle Twill emblems have multiple layers of fabric with elaborate stitching utilizing two or three fabrics stitched together to deliver a three-dimensional effect. These emblems are completely customizable, affordable and eye-catching! Ideal for letterman jackets, backpacks and more!

- DOG TAGS
- OUTER WEAR
- MUGS
- THERMOS CUPS
- WATER BOTTLES
- PINS
- NAME TAGS
- BADGES

Dye Sublimation on your promotional products is easy and cost effective. It is used primarily on 100% Polyester garments or man made products. It is best used with white or grey goods and is ideal for bicycle jerseys, shorts, socks, foam trucker hats, bandanas, masks, mugs, key chains, promotional products and more.

PATCHES & HEAT TRANSFERS

All Penn Emblem patches and ID tags can be sewn or heat applied in house. Products can be heat applied to any item such as garment bags, scrubs, hats and more. Low-Melt Backing heat seals at low temperatures without doing damage to the garment.

PennTrans™ Heat Transfers utilize the latest print technologies to produce bright, vivid colors with fine detail, while also being suitable for a wide variety of fabrics and sub straights. They are easy to use, lightweight and have fast turnaround times.

INNOVATION

PENNFLEX™

PennFlex™ is a sophisticated, polyurethane emblem that creates a superior, three-dimensional effect for any design. With many customization options, such as a matte or metallic finish, PennFlex™ exceeds standard emblem expectations with its high definition, lightweight and flexible design.

DIRECT EMBROIDERY

Direct embroidery is the most economical and fastest production style of embroidery techniques. The process begins with a digitized file of your logo or design, then, using 100% polyester threads in a wide variety of colors, we embroider directly to any garment of your choice. Penn Emblem is a PSST Sanmar Supplier, so whether you provide us with your apparel or workwear, or you select it from our inventory, Penn Emblem can create and stitch your design directly onto any garment, cap or accessory.

Direct to Garment (DTG) printing uses water-based pigment inks onto 80-100% cotton. It is like printing on paper, except on a garment with higher resolution than screen printing! DTG is a method of printing that gives you the ability to print on demand with no screens, printed in one application, no color count or set up time. Using inkjet technology, ink is sprayed onto your choice of garment. The ink then disintegrates into the fabric and soaks into the fibers of the garment creating full color items with custom text, detailed artwork, and unlimited color options.
